

RESPONSES TO DISCERNMENT

How is God calling us to be a Christ-centred Church that is open to conversion, renewal and reform?

7	<p>We fully endorse the statement that ‘faithfulness to tradition requires change that is personal and communal’. In light of this and our prayerful meditation on John 8:2-11 where Jesus does not condemn but transforms the Law and where he loves greatly but does not judge, our group believes renewal of the Mass is urgently needed. The 1998 ICEL English translation needs to be implemented now. Some current liturgical language alienates rather than engages people – the language needs to be clearer and more inclusive. The Church must re-engage with young people who are significantly disengaged and see the Church as not faithful to its mission. Indeed the Church must heed Pope Francis’ call to practise mercy, which must be evident in the celebration of the Eucharist. What God wants most is mercy and belonging, expressed in language which does not exclude on the basis of perceived worthiness. The Eucharist is Jesus welcoming all in good faith – we must return to be a truly welcoming Church.</p>
2	<p>Our hearts and minds need desperately to be able to keep the church (as in the building) sacrosanct, too much treating the church like a community hall, no peace to prepare and give thanks before or after the mass, (to connect with God</p>
5	<ul style="list-style-type: none"> • Being a Priest is a vocation, not a job. • Anglican Ministers that are married, converts to RC faith. How when priests can’t marry? • Bishops won’t break seal of confession, please tell us how in regards to disclosure of abuse, murder etc. • Female priests should be allowed as a vocation, not a job. • Gays recognised in Church but not a marriage. • Jesus accepted everyone, why can’t we welcome gay people? They should be allowed to receive sacraments and a blessing. • Accept people where they are at in life. Do not judge on their sexuality or life choices. • Sermons more topical and modern-life focused- not just a synopsis of the Gospel. • Bishops and priests need to become more “people centred”. • Priest need someone overseeing them. To be more open an welcoming. • Where do bishops get their professional development from?

8	<p>OPEN TO CONVERSION RENEWAL AND REFORM: Thursday 10/ 10 / 2019 7:00 – 9:00pm at St. Mary of the Angels, Port Lincoln Parish Hall.</p> <p>1. "To form a cooperative structure of bishop, priests, religious, and laity to lead and oversight the leadership and management of the Church. This could be done by a group of people working together as a pastoral council of the diocese, or as a group of 6 or 8 on an elected board."</p> <p>2. Share resources within the diocese; (eg. priests, religious, and laity, as individuals who know what their personal gifts are, can in this way be available to the other parts of the diocese with their time and energy.)</p> <p>3. Encourage the bishop to be freer from the burden of administration, so as to have a greater pastoral presence in the diocese.</p>
9	<p>Reflection on scripture – silent. How is God speaking to you in this scripture and all that you have read? What words and phrases have you been drawn to and why? How do you feel?</p> <ul style="list-style-type: none"> • Jesus actively went preaching. There are distinct different important roles. Not every role is for every person. • After the repent came the Good News. The Shepherd must guide his people. Priests are the main shepherds. It is important all Catholics have the same beliefs in the Good News. • To repent and believe the Good News, we have to be told the Good News. • The time has come – now. The duty of everyone of us is to grow our faith and spread the Gospel. • The Kingdom of God is at hand. We remain in the vine, interconnected. This is simple. <p>Silent Reflection – followed by sharing: "In my prayer today...And I feel"</p> <ul style="list-style-type: none"> • There is a feeling of urgency and excitement. • There is concern about change • There is a responsibility to spread the Gospel • There is Good News • Each person has a role
4	<p>Being open to conversion, renewal and reform means being open to real and meaningful change, attending to the way of being Church that does not just reference recent history and structures, but is open to that history from earliest times and seeking to identify what is at the core of being Church and what is the "baggage" of history that we can let go of. We are called to become a Church guided in its identity by the person of Jesus who was open to connect with and include a diversity of people, who gave a voice and respect to women in a society which treated them as belonging to men. A renewed Church must include women in key leadership and ministry roles at all levels. Here in Australia we need to recognise that we have fewer priests who are ageing and explore pastoral ministry for the future, with a focus on revisiting and renewing the role of the laity in our communities, with greater opportunities for learning, faith development and participation in leadership and ministry.</p>
4	<p>We need to be trying to take church out of the buildings, learning to be open to the broader world for our own faith development, but also welcoming the diversity of our society into our midst. There is an urgent need for inclusive language in our documents and in our liturgy and a need to bridge the gender divide between men and women in our church, with a focus on exploring anew the role of women who make up the greater percentage of those actively involved in the Church. Part of this is returning to the Gospels and the early Church texts, mindful of the cultural constraints of the time which make any references to the role of women in Jesus' earthly journey of special significance as we witness consistently his efforts to include those whom the society of his time was intent on excluding. We also discussed ecumenism and the urgent need to grow closer together with all who share our faith in Christ and to present a true face of unity to those yearning to know Christ not division.</p>

5	<p>Need to be more inclusive. To minister and support families who are in crisis. To develop a team approach and inclusivity within the church....all the baptised have a role in the life and mission of the church. To adopt a pastoral council of the diocese and parishes in the church. A renewed life of prayer and communion with one another.</p>
15	<p>By vigorously pursuing the previous six aims outlined here. By electing through true democratic process an independent laity-based representative group to implement these six aims.</p>
5	<p>The kingdom is now and we each have God energy in us. This encourages us though at times we struggle to keep belonging. We need to adopt gospel values and consequent change of heart. We suggest a non hierarchical inclusive participatory structure with gender equality celebrating small home group Eucharist where it's possible to share life's experiences and be encouraged by Jesus' gospel approach to life We were encouraged by the process provided and found it worthwhile.</p>
7	<p>Group 1 – Open to Conversion, Renewal and Reform (7) - The message of Jesus hasn't changed, the message foundational to Christianity. and therefore, to Catholicism. "The Spirit of the Lord is on me, because he has anointed me to proclaim good news to the poor. He has sent me to proclaim freedom for the prisoners and recovery of sight for the blind, to set the oppressed free, to proclaim the year of the Lord's favour." It just needs to be re-proclaimed and acted upon. - Implementation of Vatican II would be a great place to go back to and take up the many challenges/implications for conversion, renewal and reform: Constitution on the Liturgy, Dogmatic Constitution on the Church; Pastoral Constitution on the Church in the Modern World, Dogmatic Constitution on Divine Revelation.</p>
7	<p>Group 2 – Open to Conversion, Renewal and Reform (7) - Church leadership to recognize the widespread dismay (almost to the point of despair) at the failure of parish clergy (with acknowledged exceptions) to provide relevant faith leadership. - Following from the previous – employment of appropriately qualified individuals to manage diocesan/parish finances and business affairs so that the clergy have the time and energy to concentrate on theology, spirituality, preaching, liturgical celebration, etc.</p>

16	<p>NATIONAL PROPOSALS:</p> <ol style="list-style-type: none"> 1. Recognising that the church in Australia has limited jurisdiction, and noting that “Pope Francis has said on more than one occasion that if Bishops want to make some changes ..that they should appeal to Rome” (Gideon Goosen “Saving Catholics” P125) <p>It is proposed that the Australian Bishops Conference prepare a submission to Rome indicating that many members the church in Australia strongly recommend:</p> <ul style="list-style-type: none"> o provision of deliberative responsibility, in the forthcoming Plenary Council sessions, to members of the laity, especially women who are the backbone of the parishes. o Deliberative responsibility be given to members of parish and diocesan pastoral councils o A gradual but decisive movement towards the ordination of women priests and deacons o A revised, English translation of the mass o Voluntary celibacy for priests o Restoration of the 3rd rite of Reconciliation
16	<ol style="list-style-type: none"> 2. It is proposed that the Australian Bishops Conference formally encourage the formation of Diocesan Pastoral Councils in dioceses which do not yet have them. (https://catholicoutlook.org/diocesan-deanery-pastoral-councils-matter/) 3. In an attempt to engage youth, and in view of the apparent success in Townsville diocesan schools in developing/enhancing a rich personal prayer life and spirituality among school children and staff by the introduction of “Christian Meditation”, It is proposed that bishops trial and evaluate “Christian Meditation” in at least one catholic school in each diocese by 2021. (https://www.tsv.catholic.org.au/diocese/ministries/christian-meditation/ and http://www.cominghome.org.au)

16	<p>4. It is proposed that</p> <p>a) the Australian Bishops Conference evaluate and endorse the “Divine Renovation” model of parish renewal (https://www.catholic.org.au/resources/divine-renovation and http://evangelisationbrisbane.org.au/broader-church/formation/) and that</p> <p>b) Each diocese work towards adoption of this model of parish renewal in at least one Parish by 2021.</p> <p>5. It is proposed that a well organised and resourced celebratory inter-parish gathering of Catholics in each Diocese be held by 2021, and annually thereafter.</p>
6	<ul style="list-style-type: none"> • Broaden the perspective of Church from Sunday Mass to community experiences which include Prayer and Scripture. Create opportunities to gather; opportunities for welcome and inclusion. Allow teams of parishioners to run the Sacrament Programmes, people who are engaged and engaging; Build relationships. encourage young people who are preparing for Marriage to share conversation, a meal, Eucharist together. • Create paid positions within Parishes – people who work at connecting with parishioners, providing outreach, guidance, moral support; people who go to homes of parishioners in need and knock on the door rather than waiting for them to come to the Church. • Listen to young people. God is speaking through them. Trust in them. • Catholic schools are the Church for our young people. Listen to teachers in Catholic schools. They know young people; they connect with them and their families. Empower and trust them. Connect them through liturgy and service.
9	<p>Create less hierarchical shared leadership structures, reflecting the diverse People of God. Start with two priorities;</p> <p>1. Elevate non–ordained to leadership positions giving power and authority in roles currently solely for ordained men. Include roles for lay women and men in priests' formation training, contributing to communication and leadership training and emphasising Christ's model of servant leadership in community. Deliberately identify, foster and grow women into Church leadership roles and allow female deacons.</p> <p>2. Create Regional/Diocesan Councils that are pastorally focussed on the Gospel rather than rules, operate with high autonomy and have clarity of mission, continuing a Plenary type consultative process to draw on a wide variety of wisdom and experience. Representation should be drawn from communities and no more than 50% membership of priests/bishops. Consult with the Councils in appointment of Bishops and Parish priests. Then similarly reform Deanery Level</p>
10	<p>Similar to Pope Francis, Catalyst for Renewal urges conversation / dialogue to change hearts toward a more humble, people focused church. Openness to conversion, renewal and reform is both individual and communal. At a structural level, the Plenary Council should establish a national commission to discern governance models that reflect the diversity of the Australian church and remove inappropriate symbols of power.</p> <p>Women must be represented equally in ministry and governance roles at Diocesan and Parish levels: invested with local decision-making power, supported by diocesan resources, guidance, and formation opportunities, education and retreats.</p> <p>Roles in priestly ministry to be open to women and married men. Access to the sacraments available to all including in the regions. Re-imagine rites of adult passage.</p> <p>Foster beauty, wonder and joy through competitions for creative liturgy and commissions of art.</p> <p>A synodal church, growing in dialogue with others.</p>
8	<p>Selected Catholic faithful to act as a review panel in each Diocese. Membership by election to include equal numbers of women and men.</p> <p>Programme of ongoing formation of the ordained by expert spiritual and psychological guides - preferably not clerical. This includes seminary formation and continued lifelong formation.</p> <p>Similar programme of formation to be open and accessible to parish community.</p> <p>This formation is to be more specifically directed towards the teachings of Jesus Christ.</p> <p>The practice of the Homily be revised to include contributions and reflections from the whole community.</p>

51	<p>Global: Make the church more youth-friendly, engaging and relevant to today through Youth Groups and Youth Masses.</p> <p>Local: In the school have group Masses twice a term and weekly youth centred and designated Mass.</p> <p>Inclusivity</p> <ul style="list-style-type: none"> • Place of women in significant roles in the Church • Married priests to address the clergy shortage • Deaconate role expansion <p>What can be done for the church in the present? @ Magdalene</p> <ul style="list-style-type: none"> • Making prayer meaningful for all • Exploring how to experience liturgy and the Eucharist on a regular basis • Youth Ministry - building on student skills • Employing Youth Ministers at the College • Magdalene as a Place for Faith
9	<p>Provide renewed interest in the Sacrament of Reconciliation by offering the 3rd Rite for those uncomfortable to confess to a Priest</p> <p>Be more open and welcoming to all, not judgemental by providing acceptance for the marginalised eg divorced and same sex attracted</p> <p>New power structure – away from clericalism – laity to have more say and control over non sacramental issues like finances, buildings and other activities</p> <p>Provide better communication to and training of parish councils to get them all on same page</p> <p>Involve local parish councils in meetings with the Bishop and Clergy to provide ongoing open dialogue so laity can work with and support the Bishop to find solutions to all issues like number of priests, parishes and other issues</p> <p>Continuing discussion about role of women in the hierarchy including installation as Acolyte and ordination as Deacons and Priests</p> <p>Integrate youth mission team into parishes as well as schools to run youth masses in parishes/clusters not just at the diocese</p>
13	<p>The church needs to accept that the world we live in is changing and progressing at a rapid rate. The church needs to be more transparent with the public and change people's perceptions. Masses need to be more child friendly and engaging for children. Church needs to be more accepting of different beliefs and sexual orientations. We are all created in the image of God. We all need to be free of judgement. Jesus was forgiving and inclusive of all people. Jesus invites us all for renewal and change including the church. We need a more child centred Gospel that's contemporary and connects to everyone, that includes more visuals, interactiveness and musical connections. The church needs to be open to change from the traditional was it goes about things. The church needs to include everyone and think about embracing lay people, priest that can marry, women priests and gay marriage. Does church need to be on a Sunday, are there other formats the church can adopt to connect with people.</p>
4	<ol style="list-style-type: none"> 1. church hierarchy needs to listen to laity. In our Diocese (Maitland Newcastle) we have h/o abuse which has fractured trust. 2. Model of hierarchy in the Church needs to change. It attracts certain types who impose man-made rules of the church. 3. Priests need to walk with laity, not direct or obstruct. 4. Need other forms of celebration as well as Mass. Current mass has been celebrated with perpetrators as figureheads. Viz. Liturgy of Word.

10	<p>Allow God to mould us to move forward sincerely, authentically: focus on Hope and Salvation. The past hurts/scandal caused confusion, frustration, disappointment: remember, but not allow it to colour our way forward. People of hope - from darkness into light.</p> <p>A chosen race: God's people, God is merciful, forgiving and constant.</p> <p>Synodal and inclusive leadership of the Church – all equal in the royal priesthood. A leadership of collegiality – not only the ordained. All called to witness, minister, bring people to God. Welcome – especially to those who have 'broken the rules'. Jesus was a rule breaker.</p> <p>Change some Church laws. Allow: married priests, single deacons to marry, women priests. Structures and finances preventing God's will?? The law on divorce is archaic/alienating – no forgiveness for people to be in full communion with the Church for this mistake. Annulment process changed.</p> <p>Don't denigrate the priest. Work with priests and respect their teaching/sacramental role.</p>
45	<p>Lay inertia to cease and take a more active role in the Church, where parishioners and priests work together to support parishes, includes an active Parish Pastoral Committee. Identify the gifts and talents within the parish and empower these people to lead and support our priests. Withdraw from clericalism and have a conversion of the heart through deepening spirituality in parishes</p>
8	<p>Renewal and Reform of Holy Orders:</p> <p>We recommend an overhaul of the formation and training provided to seminarians, including:</p> <ul style="list-style-type: none"> o A minimum age for entry into the seminary. o The requirement of previous life experience through tertiary education, a trade or full-time career. o A more rigorous selection criteria, involving psychological, emotional and academic testing. o Living arrangements which place seminarians in the community, rather than in an institution. o A more holistic approach to formation, involving spiritual, moral, emotional and interpersonal development. In particular, there needs to be formation which emphasises pastoral care of the laity and the ability to more fully involve the laity in ministry within the Church, viewing them as an equal and important part of the Body of Christ. There needs to be a change to the requirements for entering Holy orders, including o The removal of the requirement of compulsory clerical celibacy. o The admission of women to the D
8	<p>We recommend the introduction of an institute which oversees the ongoing accreditation of Deacons, Priests and Bishops, similar to institutes which exist within other professions. Requirements could include:</p> <ul style="list-style-type: none"> o A set of Professional Standards which describes the knowledge, skills and understanding expected of competent and effective Deacons, Priests and Bishops. o An accreditation structure through which Deacons, Priests and Bishops are recognised as meeting these Standards. This would involve compulsory minimum hours of professional development and formation which needs to be undertaken within each five-year period. o Compulsory mentoring structures to support new Priests in their first five years of ordination. o A minimum time which needs to be undertaken as an Assistant Priest before becoming a Parish Priest. o Compulsory training which needs to be undertaken before an Assistant Priest can be made a Parish Priest.
7	<p>Teachers in Catholic schools need to be better prepared through faith formation.</p> <p>Reforms of parish life and practices need to stand on their own merits, not come and go with changes of Parish Priest.</p> <p>Church authorities, both clerical and lay, need to respond and act in a timely fashion. To not do so creates frustration among the people.</p>

5	<p>PERSONAL LEVEL</p> <ul style="list-style-type: none"> * WE all have a duty/obligation to evangelize to our family, friends and Government. To nurture and show them God's Love and Light in a spirit of Joy avoiding judgment and discrimination. *WE must live by example and PRAYER, be forgiving and fight for what is right. * WE must support our priests, our outreaches and our Catholic schools to raise the next generation of Catholics. WE must focus on the children and young adults. <p>LOCALLY/DIOCESAN</p> <ul style="list-style-type: none"> * Focus on children coming to Mass through our Catholic Schools. Children to receive Spiritual, Sacramental and Liturgical instruction and understanding from a young age. *Catholic schools to be more Catholic. Parents need help as they are NOT equipped to lead their children(gen Y etc who focus on phones, computer and technology. Generation gap too wide. Teachers can help) Parents are often UNCHURCHED and work long hours. The Catholic school should be our stepping stone but to achieve this we must HELP and SUPPORT the schools.
6	<p>LOCALLY/DIOCESAN</p> <ul style="list-style-type: none"> *Mass to be more appealing to children & young adults. Young adults to take on more roles. *Children receiving First Holy Communion to be older say 9-10 years. *Charismatic spirituality once a month, alternative fortnight to youth Mass. To form a Charismatic Community. * Include open days, excursions & picnic days. <p>NATIONALLY</p> <ul style="list-style-type: none"> Be like Jesus & include ALL people. End Clericalism which has a negative effect & end discrimination of LGBTQ. *Communion for all. Acceptance & inclusiveness of ALL. *Inclusion of divorced & remarried. *Priests to choose being married or celibate allowing both to become Bishops. *Ordain married men to be priests & welcome back priests who left to marry. *To regain parental trust we need to correctly address the Royal Commission recommendations & clergy sexual abuse issues. *Capable women in senior roles & decision making processes.
6	<p>To review all the Church laws and processes and to revise them according to and in alignment to love and forgiveness-centeredness</p> <p>To provide structure or good governance to parish priests in alignment to community engagement in all dioceses</p> <p>To build a cross-functional team or a core team in charge to review the on-going issues, for example to prioritise solutions to priest/child-abuse issue "Bite the bullet and pay it all out" (lay people inclusive)</p>
6	<p>Review the annulment process of the Church to be more understanding of real life circumstances and be less intimidating</p> <p>3rd Rite of Reconciliation should become the norm</p> <p>National Youth Councils to provide a grant application for funding a project targeted towards youth and young adults</p>
6	<p>Women Deacons - inclusion of the people of God in decision-making</p> <p>Formation for leadership in the Australian Catholic Bishops' Conference</p> <p>Explore alternative models of Church to the hierarchical model we presently have e.g. a communion of communities model</p> <p>Restoration of the Third Rite of Reconciliation</p> <p>Restoring to full communion the divorced and remarried</p>
30	<p>That the Australian Catholic Church develop, at parish and diocesan levels, programs of education and formation for clergy and laity which assist us together to listen to diverse voices and open us as a Christian community to experiences of conversion, renewal and reform.</p> <p>That the Australian Catholic Church take leadership in issues related to the recognition of First Peoples.</p> <p>That the Australian Catholic Church emphasise gospel values in the public domain.</p>

4	<ul style="list-style-type: none"> * Review and possible reform of seminary life and how they are formed and trained * Look at the appropriateness of clerical dress - both during the Liturgy and everyday life * Lectionary needs updating so that it is more inclusive and that the readings are appropriate to the 21st Century * Wording in the Mass need to be revisited
15	<ul style="list-style-type: none"> * welcoming and inclusion of the disadvantaged & minority groups with our communities (children, divorced, youth, LGBTQ etc) * valuing of female leadership within the church (allowing women to become priests) * re-inventing the church with a modernized lens that holds true to the traditions and creates real opportunities for people to feel part of a community * there needs to be a public apology for the sexual abuse of the clergy * we need to be a church of action in the world * change the way that Mass is celebrated by allowing lay people to have a more significant role and including less predictable/new elements/presentation - be creative and life giving * Allow ordination of women
5	<p>Clergy and Laity</p> <p>The Church (at all levels) need to reflect and commit to understanding the true meaning of their respective vocations. We need to create opportunities for shared reflection, so that clergy and laity are able to come together for mutual listening, support and be able to find a common direction for the future.</p> <p>Jesus as our model</p> <p>Having a focus on the Gospels and connecting this to today's issues during homilies, helps the gathered assembly to understand and respond to our world. ie: exposure to encyclicals, prayers, creating action groups, offer of retreats and printed information can inform our congregations to be active in current issues not bystanders.</p> <p>Prayers</p> <p>The introduction of a more formal or official prayer time to pray for our Clergy and Religious by the gathered assembly. Offering prayers to encourage and strengthen the needs of our clergy and Religious, helping them in their mission of reflecting Jesus within our communities eg. monthly before Mass.</p>
6	<p>Women to be given the opportunity to have equal status in the Church</p> <p>Encourage acceptance of all people into our community of faith</p> <p>Invite people to use their talents for the growth of our communities of faith</p>
50	<p>Most strongly supported. Be open to change so that the Holy Spirit can work in all. Recognise and give credence to the role of all members making valid contributions to the life of the church. This would include inverting the current pyramid model.</p> <p>Implementation absolutely necessary. The change process needs to happen throughout the church with professional assistance. Take responsibility for implementation/ownership. Change the paradigm.</p> <p>Allow priests to marry</p> <p>Very strongly supported Be open to change so that the Holy Spirit can work in us all.</p> <p>Work towards women deacons</p> <p>Welcome into church leadership priests who have left to marry</p> <p>Strongly supported Welcome discussion with those disaffected by the church</p> <p>Make church teaching intelligible to our age</p> <p>Support missionaries who come to Australia from overseas</p> <p>Some support Heal, move beyond the sexual abuse scandal</p> <p>Good formation for liturgical ministries</p> <p>Healing services of reparation for abuse</p> <p>Focus on new evangelism</p>

15	<p>Catholics for Renewal Inc prioritises the following actions:</p> <ol style="list-style-type: none"> a. Ensure every baptised Catholic has a living understanding of the <i>sensus fidei fidelium</i> b. Adopt a Charter of Rights and Responsibilities for Christ's faithful c. Reform governance to ensure accountability, transparency and inclusion, in decision making and financial management – reflected in equality for women, regular reporting, diocesan and parish pastoral councils, and diocesan synods d. Adopt governance principles of co-responsibility, subsidiarity, synodality, collegiality e. "'No' to all forms of clericalism" (Pope Francis) f. NOW: Plenary Council President to appoint a woman co-Chair committed to renewal g. Plenary Council to advise the Holy See on necessary universal reforms <p>We refer you to extensive details in support, and further major actions, in our submission/book <i>Getting Back on Mission: Reforming Our Church Together</i> - copies have been provided to all Australian bishops and the Facilitation team</p>
6	<p>Reform the criteria for becoming a priest to include gender, sexual orientation and marital status. Reform the hierarchial structure of the church. Jesus was revolutionary, do we need to look back at his model? Are we a revolutionary faith community? Keep up with the rate of change of other institutions. The centralised body of the church needs to be more aware to the needs of communities and the mesage of Jesus. Be true to the teachings of Jesus, inclusion, political asylum, compassion and caring for those in need.</p>
5	<p>Bishops, priests and church leaders who long to change rules and structures, to speak freely and courageously at the highest level without fear of reprisal and rejection. Need to hear from a wide representation of voices, laity, clergy, religious, disabled, Indigenous, women, and especially the young who are both the present and the future of the Church in Australia. These voices need to be truly listened to, carefully discernment of their needs and real sustainable action to follow. Structures need to change to allow for a democratic and inclusive team approach where the community voice has real power in decision making in matters regarding governance. All decisions, rules, practices should be underpinned by the values modelled through the example of Jesus i.e peacemaking, love of enemy, abundant forgiveness, justice and generosity to the poor, a community based on real inclusion of all not exclusion. Alternative models of priestly ministry.</p>
4	<p>- Conversion and renewal is a life-long journey. All our parishioners should be encouraged to grow in their faith, particularly through joining small discipleship groups where they can continue to learn about their faith, share their own journey and strengthen the community bonds. - Outreach programs, such as Alpha, should be encouraged as they are evangelisation opportunities for people beyond the parish as well as opportunities for renewal of parishioner's faith. - Ongoing renewal and reform of parishes can be facilitated by mandating Parish Councils or Parish Leadership Teams for all parishes. Priests can be assisted with, and advised by, such councils in managing parishes, renewing communities and reforming practices through broader ranges of parishioners' views, experiences and capabilities.</p>
6	<p>Reform ... Relationship between Priest and Laity</p> <ul style="list-style-type: none"> • Parish is a relationship between Priest and Laity that leads to a continuous conversation and creation of personal relationships with Jesus • There needs to be a clear and representative Mission Statement for each parish community ... not just one to cover many small communities that comprise the Parish • Family Groups are a means to reform relationships such that a Community becomes an amalgam of a number of Family Groups, of which the Priest is an active member • Family Groups could be formed of people with complimentary Charisms and God given Talents and as such become both bonded families, but groups with missionary tasks • Church communities need to reconsider a new Invitation, new means of explaining the Scriptures, using a language that relates to "today" a conversation with their kids simple but not trivial explanation .. a parable/story as Jesus would teach His disciples

6	<p>Family Groups</p> <ul style="list-style-type: none"> • Gen X & Y, now young adults have characteristics that have formed their outlook on the world. There is a world of options and choice in work, study, relationships, family life, leisure and health. They show little loyalty to organizations or brands or Church teachings or rules and are loathed to give of their diminishing free time • They suffer from lack of Trust of an organisation whose Hierarchy is “old fashioned and Male”. We need to show by example that our church is where we do everything “with joy and humility, for the glory of God and as a service to our neighbour” • Family Groups offer a means to rebuild “Basic Faith Communities” include a breadth of generations, life skills, support to family-life challenges, a friend when needed, to build TRUST in someone who will re-connect them to Church • Our Church needs a new generosity, a new welcome, NOT judgemental, NOT exclusive, OPEN to all, especially those who are in need, led by a Priest and his Companions

5	<p>In "LAUDATO SI" Pope Francis challenged us to take care of our common home and to protect the world that was gifted to us by God. The Church should lead in this by installing and encouraging us to embrace clean and renewable energy, install water tanks to harvest rainwater (when it comes) for use in gardens etc. All forms of recycling should be adopted and single use plastics be phased out.</p> <p>The Church should be seen as Eco-centred as well as Christ Centred.</p>

10	<ul style="list-style-type: none"> • I believe the church should be less judgemental and accepting of all. • Bishops of the catholic church and perhaps Pope Francis may see all humility. • Acceptance of same sex marriage and the diversity of relationships. • A focus on relationships that foster connection and bridge the barriers between the clergy and lay. • I believe that the lay people should be presenting their own ideas to the Pope, not the clergy. A great deal of issues are due to the catholic institution using its power and authority to isolate catholic adherents. • The catholic church's acceptance of same sex marriage and the diversity of relationships.
4	<p>Inclusion of all people in the Church. Changes to the governance of the Church to include all Australians. Promote and celebrate the rights and responsibilities of others.</p>
11	<ul style="list-style-type: none"> - lighten the way the Church is presented by doing away with the paraphernalia of clericalism, including calling priests "father" - clergy have to stop being afraid of laity taking on a wider range of roles in the Church - better training of lay people for ministry - will the Plenary achieve the necessary change? - restoring the good of the past for the sake of our grandchildren - Rome has to lead the way to a different Church, but cardinals are a problem
6	<p>The consensus emerging from our discussion was: a) the time for action is NOW b) a primary action must be to SIMPLIFY. Markers of a Christ-centred Church in Australia open to Conversion would include ~ CHANGE: is needed - let us be moved by the Holy Spirit to dialogue and thoughtfully communicate. OPENNESS: to embrace new ways, starting at the Parish level. NOW: discernment has to be accompanied by Action - 'The time has come'. VALUES (Gospel): be true to Christ's message, Church's teaching and practice must align. EMBRACE: acknowledge the hurt, be a supportive community. REFORM: courage to admit and address wrongs; repent and evolve. SIMPLIFY: strip back excess in structures and hierarchy to reveal the essence of our faith. INCLUSIVE: celebrate diversity, build a Church that welcomes, listens, prays and understands. OPPORTUNITY: seize renewal as a positive opportunity for transformation, not a threat. NEWS (Good): the message is eternal – but needs to be proclaimed for today's world.</p>
28	<p>We seek radical change – the inverted pyramid model with transparency in governance and decision-making, and women having an equal part in the leadership of the Church. Priesthood should be reviewed with a view to ordaining women and having married priests.</p>
7	<ul style="list-style-type: none"> - prayer evenings for laity to pray for clergy - there needs to be public repentance for the the damage and wrongdoing our church have been involved in. <p>Acknowledgement and remorse within the church, seen and heard only by church goers, is not enough. A twofold national advertising campaign to be devised - 'Now is the time - for change, for action, for love...'. First, a 'sorry speech' (like Rudd's Apology/Keating's Redfern speeches) - an acknowledgement of wrongdoing and showing steps forward. Second, an emphasis on what the church is doing - on all levels and as a communal being - not just Caritas, not just the nuns for asylum seekers, not just SVDP, but as a Church for all peoples on all levels.</p> <ul style="list-style-type: none"> - clergy to be allowed to marry if they choose to. - inclusion of women at all levels - as theologians, deacons and clergy

8	<p>The people of the Central Deanery of the Diocese of Parramatta submit that to be Open to Conversion, Renewal and Reform we must revise the way that Religion is taught, as it should be a way of life that is actually practised. The formation should also include opportunities for Mission.</p> <p>We should do our utmost to remove the stigma around the “Labels ascribed” to ensure that the Church communicates that it is WELCOMING to everyone. We must communicate effectively the view that we may “hate the sin but we always love the person” message.</p> <p>It is important that we restructure the Financial Support between the Diocese and the Parish so that the Parish is actually supported and has the resources it needs to grow. This would enable individual Parishes to form a faith community/family. This will in turn allow GROWTH in FAITH and support New Evangelisation</p> <p>To assist in achieving these aims, we believe that we need to welcome back Priests that have left to marry or for other reasons, and to provi</p>

4	<p>Make public statements of acceptance to excluded groups, such as women, LGBTQI+, divorced people. We need to act and speak in ways that show we mean what we say ie that we accept that all people are children of God. We need to recognise that there is a distinction between who we are – eg female, homosexual, disabled – and what we choose to do – eg be a drug dealer.</p> <p>The laws of individual consciousness needs to be recognised. But this needs to be balanced by appropriate education so that people understand the faith and why the Catholic tradition maintains certain ethics and practices. Examples provided include euthanasia and contraception.</p> <p>Greater transparency is required but this needs to be done in a way that is honest and easily accessible.</p>
4	<p>Adult education is required. Topics include sacraments, the mass, the richness and depth of our faith and tradition, how to read and understand the Bible. Many people don’t know modern church thinking. Everyone needs to be educated in a way that is easily accessible and that people find surprising. Foster a culture of “Professional Development” (PD) for faith that allows people to catch the bug of learning about our faith, similar to PD at work. Don’t know how to do this but we need to find a way that people want to learn about their faith (cannot be imposed)</p> <p>We need to learn about and question tradition so that we can see why tradition came about and to determine if past traditions are still relevant for today. We need to discern whether our traditions trap us and exclude or do they allow all of God’s people to flourish and grow.</p>

4	<p>More people are required to be active in a pastoral capacity. It is time to consider:</p> <ul style="list-style-type: none"> • Married priests – the role of the priesthood will need to change to accommodate families so that priest’s families and their parishes flourish. • Women need to be considered for the priesthood. We need to have our first female deacon by 2025. <p>We need a pro-active leadership. For instance, euthanasia laws have been passed in various states and we are still wrestling with “nuts and bolts” of how we minister to people who choose euthanasia. Furthermore, while information was distributed, speaking about euthanasia at masses was optional so that people do not understand why it is opposed and what is supported. This is the same with many topics. We need good, sound instruction delivered in a manner that illuminates what the Church believes and not emotionally charged propaganda.</p>
4	<p>Greater transparency is required for the Church so that poor choices can be seen. We need more open “corporate” structures, more reporting, more lay involvement. Currently parishes can choose whether they report finance and pastoral council actions to the parish. Parish Pastoral Council needs to be stronger, more active and transparent. Parishioners need to be more involved with the parish.</p> <p>Groups in local parishes require leaders who are trained in modern Church teaching so that true faith can be spread. Leaders bring their own beliefs which may be pre Vatican II or simply not true church teaching and this allows false belief to flourish.</p> <p>Clericalism continues to exist. Training is required to empower priests to destroy clericalism. Lay people also need to be trained to understand that priests are not on a pedestal. Priests who come from overseas need to promote Australian practices and not further the myth of clericalism.</p>
4	<p>As a church we need to examine our traditions to discover why they came about in the first place and to test if they are still required. Why did we decide that priests could be the only people who could celebrate the eucharist when this wasn’t the case in the early church? Is this still valid? Why do we have only male priests and leaders? Is this still valid?</p> <p>Establish Centres of Excellence for particular topics so that not everybody needs to investigate topics to find out what to do. For instance, Sydney has developed anti slavery resources and Brisbane has Domestic Violence information. As they exist, these resources are aimed at particular geographical areas, but can be cheaply modified so that they can be used all across Australia. We can share our resources better rather than duplicating work and resources.</p>
1	<p>Jesus demonstrated a new way of being, as individuals and as community. He was considered radical and he was a reformer. Is it not time for the Church to take Jesus' lead, to reform and open to conversion.</p> <p>Examine carefully why church membership has declined.</p> <p>How much longer is the Church going to deny the full membership of women in its structures and decision-making? Where is inclusion and full participation. Women led early Christian communities. Why can't they in the 21st Century and why can't they be deacons and priests? The Church must always exercise both an option and provide for the poor, the marginalized and oppressed. Those that have been hurt through sexual and other abuse at the hands of the church need to know compassion and receive compensation. Real reform is needed and it needs to be acted upon now. The church must engage in reconciling those who have been deeply hurt and disenfranchised through a moral code that falls short of Jesus' example.</p>
9	<ul style="list-style-type: none"> • Our Bishops should act justly, love tenderly and walk humbly with their God. • Openly accept those whom we have disaffected: divorced, homosexuals etc. • Fully review / revise the rules around marriage including marriage of gay couples. • Allow local development of liturgies including the Eucharist. • Provide for lay-led Eucharistic celebrations. • Role of women needs to be fully explored especially with a view to ordaining women, first as deacons then as priests. • Celibacy should be optional. • Priests who have left to marry should be welcomed back to full exercise of their vocation. • Lay people should be allowed to preach the homily when they have the skills and appropriate engagement. • Allow lay participants at the Plenary Council a deliberative vote. • Allow greater autonomy to priests in the full range of pastoral activities eg where and how they conduct marriages, funerals and other services.

6	<p>Develop new equal and participatory church structures. Women included in all aspects of church decision-making as well as priests and deacons. Married priests able to continue in ministry, if they wish. Church structures to engage all people: young, women, elderly, those on the fringes of society.</p>
1	<p>Jesus came to renew and reform the Jewish nation. Jesus was angered by inhuman behaviour, petty rules and laws. He was non-judgmental, compassionate and kind. The Church, in the 21st Century, must follow Jesus' lead and example. Be more than ever: compassionate, inclusive, humble, welcoming, caring for all humanity, the environment and God's creation. Exercise servant leadership and through positive actions bring joy to the world. Act to heal, amend and compensate those who have been hurt, ostracized, excluded and wronged through abuse and power. The Church demonstrates it cares and that all matter absolutely because they are loved by God. Reduce the power of the clergy/re-think clerical hierarchy to reinvigorate and re-imagine a reformed inclusive church. Actively support the reforms of Pope Francis, who leads by and through the example of Jesus and St Francis.</p>
9	<p>Revive faith, morals and spirituality, amidst secularism & materialism. Bishops: Demonstrate leadership publicly. Priests' priority: Pastoral care over administration. Laity: Know faith. Be convinced. Be a proud Catholic. Faith leading to action; internal conversion, external charities. Church: Not a powerful institution. Humbly serving community in education and health. Welcoming & providing Gospel based happy life. Catechism to be at par with secular knowledge. Parish Community: Add social activities and common prayers. Eucharist and Prayer life: Sacred and reverent, while engaging congregation. More participation in singing. Make Eucharist meaningful. Daily prayers, meditation, holy hour, retreats. Evangelisation: Teachers—make students practical Catholics. School workshops—for parents and godparents on their Catholic responsibilities. Form family groups in the locality; invite non-practising Catholics. Distribute leaflets. Engage government. Use technology</p>
10	<p>When viewed from either a traditional angle or contemporary angle our group thought CONVERSION RENEWAL & REFORM is an obvious must for the institutional church and adherents of the faith particularly in light of declining congregations/clergy nos. and reluctance by many adherents to identify as Catholic. Council should turn to God and conduct a genuine examination of conscience of the Aust. & Int'l church. The institutional church cannot be the default position when genuine instances of ungodliness are identified. Reform & renewal will come from revised interpretation/emphasis of scripture into contemporary language, culture and theology flowing through to revised hierarchy, gender emphasis, priestly formation, preaching, teaching and active engagement with laity and parish groups. New pathways to the love and nourishment offered by our Creator & Saviour must be identified, smoothed and defended. Tradition is no longer the only pathway. 4	<p>*Third Rite of Reconciliation needs to be reinstated, many may then feel they can go to the First Rite after having had more experiences with the 3rd. *All vocations should be open to all people...women deacons/married priests/etc *Make the Church more inclusive for all. *Communion for those who are divorced- if not there needs to be an explanation from the Bishops.</p>

30	<p>To achieve renewal and reform in the Church and become Christ-centred we need an educated laity as Card. Newman called for. Fr. Kentenich, the founder of Schoenstatt, speaks of the Church as the "family of God". He draws a comparison with the Holy Family in Nazareth and says: "In the Church, too, like the Holy Family, we have the Saviour at the centre. There we have a male and a female principle, the Marian and Petrine principles, like the Holy Family. The female principle in the Church is similar to the Mother of God in the Holy Family. The male, the paternal principle in the Church, is the priesthood." J. Kentenich, 11.8.36</p> <p>Well-informed laity can and should contribute on parish and diocesan levels to promote a genuine renewal. Genuine reform requires recognition of the different roles of men and women, clerics and laity as well as openness and the readiness for complementation on the part of the hierarchy and the laity. Such a working together should lead to true Synodality</p>
80	<p>OPEN TO CONVERSION, RENEWAL AND REFORM</p> <p>The future of the church in Australia depends of the theme of conversion.</p> <p>For this to happen it is incumbent on the bishops’ willingness to listen with an open heart and mind to the 220,000 people of God who contributed to phase 1.</p> <p>We suggest that the bishops participate in formation in leadership, scripture and spirituality so the Gospel rather than canon law shapes our future. This is what Pope Francis is asking of us.</p> <p>This prayer captures our hopes:</p> <p>Flame –Dancing Spirit, come Sweep us off our feet and Dance us through our days. 80	<p>These ideas came from a meeting in which the text reflected upon was Luke 1:26-56: The Annunciation and the Visitation and Luke 1:18-20 where Zechariah engages with the angel. We then reflected upon and had conversation on theme 6</p> <p>We believe that the other five themes depend upon the institutional church and the people of God engaging in conversion, renewal and reform so that we bring transformed minds, hearts and spirits to our reflection on the other themes.</p> <p>Some suggestions</p> <p>Could the 'ordained men', like Zechariah, have 9 months of silence/listening to the faithful, especially the women. That 'the ordained men' reread the gospel to understand how Jesus was totally inclusive of Women and look to see how we can incorporate this into our Catholic community.</p> <p>Can the bishops take "time-out", like a 'Zechariah' experience, who when he tried to add his own voice was reduced to silence? to be disempowered in order to receive the spirit anew and to be empowered for a new time.</p>
80	<p>At our December meeting the faith community we desire is summed up in this hymn/poem. Music, poetry, story and art are the language of the soul.</p> <p>SING A NEW WORLD INTO BEING Sing a new world into being; Sound the bold and hopeful theme. Find a tune for silent yearnings. Lend your voice and dare to dream a church where all who worship find their lives and loves belong. Sing a new world into being. Sing as Christ inspires your Song!</p> <p>Sing a new world into being where each gender, class and race brings its rainbow gifts and colours to God's limitless embrace; where the lines that once divided form instead the ties that bind. Sing a new world into being: risk transforming heart and mind!</p> <p>Sing a new world into being Where the homeless find a home, where no children ever hunger but are filled with God's shalom: where all people work for justice, where all hate and vengeance cease.</p>

3	<p>I think the Religious Education curriculum in Catholic Schools needs to be open to conversion, renewal and reform.</p> <p>As an RCIA coordinator I've noticed that several adults who have gone through Catholic schools in Australia do not have an adequate knowledge or understanding of Church teaching and morals and how it is relevant to their ordinary everyday life (a living faith).</p> <p>Also, many Catholic adults don't understand that you can't separate faith in Jesus and faith in the Church.</p> <p>As an RCIA coordinator I find it difficult to choose appropriate formators or sponsors to teach/share the Faith with those who want to be baptised or enter into full communion with the Church.</p> <p>Besides being an RCIA coordinator, I have been an SRE teacher/coordinator as well as a sub-in teacher for various Sacramental programs with my parish and it is evident that many people who have gone through Religious Education programs in both Catholic and public schools no longer practise the Faith.</p>
60	<p>Theological studies, adult faith education Employing Faith based teachers in Diocese Learning the truths of our religious tradition and how to apply them to this age – better adult formation Form and pay Pastoral Catechists, Create appropriate faith formation resources (online and other) and encourage parishioners to engage with continual growth in faith formation Families who come for Sacraments are encouraged to grow in their Faith Live your faith with the Holy Spirit evident Parishioners know their faith and confident to share it We have someone to talk to about our innermost problems Live like Jesus told us Encourage Ecumenical Community and Environment Focus on the family groups Celebrating our roles as men and women Changes communicated clearly with good consultation Reform to include less clericalism, more laity involvement An annual retreat or renewal activity Having more discussion groups where these things can be discussed in community</p>
6	<p>Australian Bishops must mandate:</p> <ul style="list-style-type: none"> - The promotion of the message of Fatima, the Rosary and the first Saturday Devotion - That every mass starts with the Rosary and is completed with the St Michael's prayer - That every priest teaches the examination of conscience and promotes a proper understanding of Confession, emphasizing the value of the First Rite for its salvific, healing and psychological value - That every child in a Catholic school receive a rosary and that every school day starts with either a mass or a decade of the rosary <p>Australian Bishops must promote abstinence and meat-free Fridays throughout the year for spiritual and environmental benefits, in line with the initiative taken by the UK bishops</p>
6	<p>National Action:</p> <ol style="list-style-type: none"> 1. The Church needs to be unjudgmental & inclusive towards divorced couples, gay people. 2. Embrace this time of renewal.</p> <p>Renewal must start with the Church hierarchy being willing to share authority with laypeople and religious men and women. A new structure of leadership is needed.</p> <p>Work needs to be done to diversify the priesthood, including married priests, women deacons and priests and the return to the priesthood of those who left to marry. Develop the role of deacons in sacramental and pastoral care.</p> <p>Be willing to reconsider the Sacrament of Confirmation from a sociological perspective - as a rite of passage to adulthood rather than an initiation into faith.</p>
1	<ul style="list-style-type: none"> • New models of governance and ministry; inclusivity, transparency, accountability, professional development • Mandatory pastoral supervision of all ministers • Revision and re-articulation of sexual ethics • Commitment to ecological action • Willingness of all to follow the way of discipleship
4	<ul style="list-style-type: none"> • Improve our engagement with youth and expand the role and identity of the laity in general (i.e. youth synods). • Actively reach out to those who no longer feel that “Church” is for them, providing opportunities to meet them on their faith journey and to reconnect. • Empower parish communities to trial liturgies and ministries (including the 3rd Rite of General Reconciliation) best suited to their local area’s needs. • Develop a conversation to consider replacement of the term “laity” with a more empowering word. We are all apostles given Christ’s mission by our baptism. The church needs to open the doors to the faithful people as though they were true apostles; to give them a greater role in leadership, formation, liturgy and mission. • Foster and support greater access and sharing of the rich resources of parishes, dioceses, religious communities and organisations across Australia in order to improve adult faith formation, enrich liturgies and keep us connected.
10	<p>1. We feel deeply the call towards a radical attitudinal change in our Church. We want to be able to work with men and women in our community who are committed to the search for a new way of relating to our world and in particular to our environment. Over the years our bishops have spoken to us on these matters, Pope Francis has written Laudato Si, but still these messages don’t seem to be reaching many of us.</p> <p>So we propose:</p> <p>That the Plenary Council promote education for clergy and laity in all areas of modern life, so that we are able to discern the signs of the times in our world today especially on our moral duty to respond to the call to protect and nurture our environment.</p> <p>That the Plenary Council encourage Catholics to join forces with the men and women in our community who are already responding to this call.</p>

10	<p>We are concerned for our diminishing and ageing parish communities and we see the need to attract children and youth and younger adults. We want Church teaching to be relevant to our modern world without losing essential truths. Some of us value the practices of our pre-Vatican Church . Others of us feel that there is no going back as our world is very much changed since that time.</p> <p>So we propose</p> <p>That there be a new translation of the Mass with more up-to-date and inclusive language.</p> <p>That each parish be encouraged to find expressions of faith and liturgy that are relevant to children and youth.</p> <p>That our Catholic Catechism be written in less formal language.</p> <p>That where beneficial we continue those practices from our past that support our faith.</p>
8	<p>: We feel it is important for each parish to reach out to Indigenous Australians in our region.</p> <p>So we propose:</p> <ol style="list-style-type: none"> 1. That parishes be encouraged to make meaningful and respectful connections with Indigenous Australians based on the freedom and equality of all Australians.

We also understand that youth respond to leaders close to their own age</p> <p>So we propose:</p> <ol style="list-style-type: none"> 1. Ongoing training to improve our teachers in Catholic schools 2. Training and support programmes for youth leaders

10	<p>St Vincent’s Parish, Portland, NSW, has discerned that, to follow Jesus in our time, the following actions are urgent:</p> <ol style="list-style-type: none"> a) Promote genuine Church conversion and conversation, e.g., changing the culture is a real conversion; b) Implement Pope Francis’ vision of a merciful church; c) Implement meaningful lay leadership; d) Implement a synodal model of church; e) Ensure our church is transparent, accountable, non-clericalist, and inclusive. f) Adopt governance principles of co-responsibility, subsidiarity, synodality, collegiality.

4	<p>A Christ Centred Church will be willing to wipe the slate clean and start afresh. The message is not what has failed us, rather it is the delivery that must be renewed and sustained.</p> <p>Leadership, both Clerical and Lay, must regain its flavour, become the salt of the Earth again, and build upon the cornerstone.</p> <p>Before we can activate conversion we need to be open, humble, gentle and patient.</p> <p>Conversion has to be preceded by a sense of belonging and trust.</p> <p>Belonging could be in the form of music, singing, games, sport, social media, family activities, craft or charitable works.</p> <p>Renewal, in the context of lapsed Catholics and those of poor spiritual formation, need re-educating about the basics of the Mass, the traditions and symbolism, Bible study, and understanding the importance of the Christian family.</p> <p>Reform should entail a sharing of the load, where the laity work alongside the clergy to share the load and responsibility.</p> <p>Restoring the Christian family in Parish life is vital.</p>
2	<p>We need to focus on passing on the faith and Christ's salvific message to younger generations. Many children at Mass are there with grandparents, not parents. Many have never been exposed to the good news and the Church.</p> <p>We came back to our faith by encounters with joy-filled Catholics, who took their faith seriously and showed genuine care. We were showered with grace through Christ's mercy in Confession, returning to Mass/the Eucharist, and being exposed to Eucharistic Adoration, lectio divina and the Rosary.</p> <p>Changes on reception of Communion, ordination of women, married priests, lay-led Masses, 3rd Rite of Confession are contrary to Church teaching & outside the scope of the Council.</p> <p>We think 'clericalism' is a stereotype that has little basis in current reality.</p> <p>We need to follow the truth of Church teaching on homosexual acts and sexual identity, and show special care for the same-sex attracted or gender confused. Support of Courage/Eden Invitation would be beneficial.</p>

More consultation and decision-making powers to be given to Parish Council and Finance Committees 7. Diocesan Pastoral Councils with deliberative power to be established in all dioceses 8. Changes in parish governance and pastoral care to be explored, such as that proposed by Canon 517.2 9. Tolerance of difference

8	<p>1. Allow the parish elected parishioners to own and direct their own parish</p> <ul style="list-style-type: none"> • The parish elders interview and recommend a priest/ leader who is suitable for the needs and outlook of their parish. • Incoming priest to support existing programs • Parish finances to be transparent and in the hands of an accountant <p>2. Jesus reached out to the outcasts of his time. He gathered fisherman and tax collectors and walked the earth. Establish a culture that is outward looking. Focus on reaching out to the marginalised of our world .eg the asylum seekers, the young, the homeless.</p> <p>4. Identify the number of disused and underutilised church buildings. Open these to asylum seekers, the poor and homeless. E.g. The Good Samaritans opened their Preston convent for needy women.</p> <p>5. Encourage each parish to adopt a community</p>
956	<p>The greatest need for conversion is for the development of a Church that welcomes people, without exception or censure. Such a Church is a loving community where communal effort and power and decision-making are shared. Pope Francis has provided a template for renewal in Evangelii Gaudium.</p> <p>It is recommended locally that</p> <ol style="list-style-type: none"> 1. Parishes adopt a conjoint planning process with the Parish Priest annually at a planning retreat where discernment on issues of renewal is the central focus and an action plan to bring this about is developed. 2. Resources are allocated to the formation of the laity so that they are properly equipped to take on leadership responsibilities. 3. A program of renewal be initiated in each parish along the lines of the 8 characteristics of renewal as defined by the late Dr Dennis Edwards for the Adelaide archdiocese.

We are all still aware of the Ongoing impact this has on our community, individuals, family groups and our city at large.</p> <p>We are aware of the number of suicides of victims of this abuse. Then we have existing survivors who remain damaged individuals because of their memories and injuries. As a member of the broader Ballarat Christian community, we have an interest in the acknowledgment and addressing of the compensation which has been allocated to the 'innocents' (children) who were damaged, and the compensation as designated by the Royal Commission.</p> <p>With attention to privacy, we would like to see this addressed, perhaps in code, that payments are being made to families of suicide victims and individuals. Openness, renewal and reform demands that Parish Pastoral councils take real responsibility for direction of parishes; laity be more fully involved in governance of parishes with consultation at all levels. This would enhance the ministry of the baptised and reduce the load on clergy. 2. Selection, training and status of clergy demands reorientation to a service model of ministry, admission of married men to priestly ordination and re-admission of those who have left to marry. Women need a greater role in both liturgy and in governance. Consideration is needed of diaconal ordination of women. 3. We need to be a more compassionate, inclusive and non-judgemental church, reflecting Jesus core message. We need to welcome all to full communion regardless of gender, sexual preference or marital status. We need to re-allow Third Rite reconciliation to expedite this.
8	<p>How is God calling us to be a Christ-centred church in Australia that is: Open to Conversion, Renewal and Reform.</p> <p>Conversion</p> <p>Work towards a new model of 'church' one that is less 'Hierarchical' more pastoral.</p> <p>As Pope Francis said: " the church is to be a field hospital working for the wounded"</p> <p>Bishops to embody this by being more humble, more engaging, less pomp, less regalia.</p> <p>Renewal/Reform</p> <p>Ordain women as Permanent Deacons</p> <p>Ordain more married men as Permanent Deacons.</p> <p>Encourage and invite former priests to be "re-ordained"</p> <p>Use media more to spread the good news.</p> <p>Be more transparent in all areas of governance.</p>
4	<p>The Church needs to be open to conversion, renewal and reform. Without this, numbers will continue to dwindle. It has a moral obligation to ensure that the good work done by the church is not overshadowed by the negative aspects. The Church needs to reflect its own values, and most importantly, be inclusive, a reflection of contemporary society. The Church needs to offer more to society, be visibly responsive and connect with people, especially the young. It needs to be open to change and renewal so that people's perceptions shift and it is seen as welcoming, practical, reaching out to those in most need, and reflective of the world today.</p>

4	<p>While tradition and ritual is important to the church, when it becomes too rigid it becomes exclusive and it degenerates. For many, this is their perception or experience of church as they cannot readily connect to or identify the underlying principles the tradition has been built on. Using a metaphor of moving from darkness to light (and the grey space in between) we seek a church that challenges itself, the individual and society to respond always from the perspective of love. As God is love, both tradition and structures of the church must reflect this, and find the balance between history and the current culture.</p>
4	<p>Greater responsibilities given to the laity of the church. The importance of values needs to be taught to our youth, now. The fact that we can question the church is good, it requires answers of action. We acknowledge that we all sin and that this should not be a basis for excluding anybody from the church. Our community is currently divided by ceremonies such as the Eucharist, where those who have completed the Sacraments can take Communion and those that haven't can't. There is a disconnection between how the community practices faith and how the Church rules that it should be practiced. Doctrine and liturgies need to be revisited to bring them into contemporary relevance.</p>

Re-instate the Third Rite, people came in numbers. Young people let down in not given access to Reconciliation. • A split in ideology: Jesus, the way of love and compassion on the one hand and on the other, a law-abiding concern for rules and regulations. Our church today appears similarly split. • Nationally, well publicised, church publicly seeking forgiveness from victims & survivors of abuse: Sacrament of Reconciliation to be held during mass at the same weekend throughout the country. Future church is dependant on healing. </p>

Teaching on discernment with experiential opportunities enabling people to recognise the signs of the Spirit at work in their lives. 3. Homilies need to cease the focus on sin and having to prove ourselves. Focus on Jesus and his love: “neither do I condemn you.” Encourage conversion of heart through love not fear and sin! Invite the people of God to meet the compassionate Jesus. 4. Make 3rd Rite of Reconciliation available in Advent and Lent. In this time of crisis and many no longer use the 1st & 2nd Rites. What matters is making the sacrament accessible to all! 5. Inclusivity, team approach at all levels of church. With teamwork skills, most people can experience this in their parishes.
5	<p>Over the past few months since our groups have met to discern what God is asking of us as a church in Australia I’ve continually been brought back to the discussions in the various groups I’ve been discussing this with. One strong theme has come out of those discussions. It is best covered by the recent publication by the Australian Rev Professor Anthony Gooley in his book “Deacon’s Today” which looks at the history and theology of the diaconate. I believe this book which is easy to read but supported by academic integrity should be required reading by all delegates of the Plenary Council as it opens up the theology of diaconate as expressed by the various Councils especially the 2nd Vatican Council. His book can be found at https://coventrypress.com.au/Deacons-Today.</p> <p>This book expresses much better than I can how the diaconate is perceived in Australia and the way that ministry could assist in renewing our church.</p>

This council sits on an equal footing, alongside and consults with the Catholic Bishops Conference, but is not accountable to the Bishops Conference. Recommendations from National Council are distributed to Archdiocesan Councils for implementation in consultation with delegates from Parish Councils.</p>
12	<p>The Church in Australia proclaims that the sacrament of Matrimony involves a dynamic relationship in which the community of the family grows in a similar way to the community of love in the blessed Trinity. It acknowledges the theological construct of the family as “the domestic Church” is in fact true and that growth in faith is known and lived as a covenantal relationship between God and the family and not simply as an aggregation of religious facts. Taking as its vision “Gratissimam Sane”, Pope St John Paul II's letter to families, it undertakes to study the characteristics and growth of this relationship within the family from the earliest years to old age, and proposes to the people of Australia that this is the truly Christian course of the sacrament of Matrimony and the family in spiritual growth and growth in faith.</p>
4	<p>God is calling us to be a Church open to conversion, renewal and reform and the only issue for debate is 'How?' Despite the contrary cynical view, there is no room for the idea that the Church will be the same after the Synod as it is today. Apart from anything else there will have been a terrible waste of time and money if nothing is changed.</p> <p>Language Language used in liturgy should accord with modern usage, e.g., 'you' instead of 'thou'.</p> <p>Translations of the Vulgate should be in the English idiom rather than literal equivalents, e.g. 'consubstantial'.</p> <p>Inclusive language should be used instead of male-centric language, e.g. God is not male.</p> <p>Ordination of Women If Christ ordained only men, it would have been only because the position of women was inferior.</p> <p>Full communion of divorced and remarried people with the Church.</p> <p>Homosexuals</p> <p>Lay participation in appointment of bishops.</p> <p>Married clergy.</p> <p>The Mass should not be the best form of communal prayer.</p>

7	<p>Submission 1: That the national and diocesan Church commit itself to a decades-long effort to return to an authentic understanding of the original gospel message, identifying ourselves by right practice having precedence over right theory. This must be embodied in well-resourced structures of national and international research, teaching and experiment, helping to inform our actual practice and presence in our society.</p> <p>Submission 2: Reclaim the synodal model for the national and diocesan Church, by establishing authoritative, regular and inclusive structures for dialogue, governance and practice within the local Churches.</p> <p>Submission 3: Openness and transparency are of critical importance. The secrecy of the Church around the issues of sexual abuse is horrifying and unacceptable. Leadership must humbly accept the need for their ministry to be actually accountable to their people and communities, and establish responsive mechanisms for leadership, to be accountable to the people of God.</p>
12	<p>For our Church throughout the world We recommend that current Canon Laws be reviewed in order that the Church welcomes and accepts people of faith who are currently discouraged and/or prevented from participating in the sacraments and life of the Church. In particular we recommend: the removal of the prescription for divorced people to undertake an annulment process which in effect causes the divorcee to deny the legitimacy of their first marriage; that people who identify as LGBTIQ are welcome to full participation in Church liturgies; that people of other Christian faiths who share a belief and understanding of Eucharist are welcomed to participate. We recommend a thorough review of the Church hierarchy structures and the priorities of the Church to enable a refocus on the basic teachings of Jesus Christ and reclamation of moral authority. With fewer Catholics attending sacraments and fewer priests celebrating these sacraments, the number of bishops/cardinals has not decreased to ref</p>
16	<p>Personal conversion is needed, but this doesn't necessitate institutional change and institutional changes aren't enough either. However, shifting from a patriarchal church to a church of feminine and masculine balance may initiate greater personal conversion and a renewal of language and questions of how am I catholic, how do I meet Jesus, who is Jesus for me, with greater dialogue and listening to the concerns of people, being open to more variety and creativity regarding responsibilities at all levels.</p> <p>Renewal of language in teaching and liturgy, moving from a clergy driven church to a church were woman and lay people feel valuated, are listened to and see leadership roles open for them.</p> <p>These things could be reviewed through the lens of a more inclusive church that allows female deacons, priests that can choose marriage, priests who left to marry returned and lay people working at a greater level in the parishes and Vatican ?</p> <p>We pray for the Holy Spirit to guide you ! 20	<p>In order to be open to conversion and renewal, our parishes need a fundamental reform: create a place where a catechumenate, a Christian initiation is provided, to allow the seed of baptism which has been planted in the Christian to grow and bear fruit. Rather than designing artificial programs or copying them from overseas, the Church in Australia should rely on charisms that the Holy Spirit raised as a result of the second Vatican Council (Emmanuel Communities, Neocatechumenal Way, Focolare) to provide this service. This is not about teaching the meaning of baptism, but to make the seed of baptism to grow and to form adult Christians. In fact, the Catechism of the Catholic Church says: "Not only is there a need for instruction after Baptism, but also for the necessary flowering of baptismal grace in personal growth." The Church in Australia should foster these realities, drawing on their long-term experience in talking to the man and women of today, inspiring the love of God and the</p>

We need to make the church more relevant to the youth who are looking for the truth that can set them free.</p> <ul style="list-style-type: none"> • Continue to address the abuse issue but improve the screening process for new vocations. • Better formation for priests. Perhaps a national or international seminary. • Empower priests to speak the truth with clarity and without fear. • Organise teaching masses and restore the sense of the Sacred. • Faith formation events featuring good catholic speakers. • Organise special prayer groups to pray for our priests. • Organise Adoration at every parish. • Priest to become more visible and active in Catholic Schools. • Organise chastity talks at catholic schools and parishes. • Better catechesis for the young and the old.

Social workers and councilors play a very important role in helping people out. Every parish needs to hire people of this capacity to help parishioners out. We need to bring in Alcoholics anonymus into all parishes. To bring about a major change we really need married priests and we also need a lot of transparency in every dealings of the church</p>

1	<p>The Australian Church needs:</p> <ul style="list-style-type: none"> • An openness to ideas, not intellectual repression as under the previous 2 popes which led to fear of expressing anything controversial. • The Catholic Press to be a platform for discussion and hard issues, not just stories which do not embarrass the church. • A more up-to-date view on gender roles. Teaching in relation to artificial contraception and homosexuality should relate to the experiences of men and women living in the world today and the findings of modern sciences. Often it seems no more than a spiritual gloss on rules developed to meet the needs of biblical tribes. • Celibacy to be a norm for priests but with exceptions like older married men whose families no longer need financial support. Priests who were permitted to leave to get married should be considered. Ordaining women priests would be popular with many Catholics in Australia. • The Diocesan clergy to have more skills in working with laity and particularly women who form the majorit

We in turn need to change and renew ourselves because we are His chosen people. –We need to get rid of our worldly way of thinking and behaving so that the Spirit and wisdom of God can work more powerfully in us. If people cannot see the mighty acts of God in us they will not believe. The concrete Actions at Parish level were: Have a Book Club, Lenten Programme, Keep booklets for easy explanation of Confession. At Diocese level: Have more public affirmation of faith, Renewal process for Priests, Stories in magazines of the benefits of Holy Reconciliation, Have training colleges in each State, Catholic T.V.</p>

Address the declining involvement of youth in the Catholic Church by developing a national youth program based on a review of similar programs world wide to establish best practice and ensure a consistent, effective approach across Australia. Roll out of the program should be compulsory across all dioceses and parishes. The program should include youth focused Mass, faith formation and inter parish social opportunities. 2. Establish a nationwide approach to adult faith formation including a small groups program. 3. Mandate that parish priests regularly say Mass in other parishes or dioceses. This would foster greater consistency of practice between parishes and would give parishioners the benefit of exposure to different preaching styles.

20	<p>Many, many women, me and young people have walked away from the church. Our situation is dire. We need a new imagination of what it means to be a Catholic Christian at this time in Australia. We need new saints leading the way and inspiring us in our parishes and dioceses. Pope Francis invites us to see and understand the church and its mission in a new way. So, we need to renounce what does not communicate and create space for the Spirit. We need to change by returning to the sources of new life. We need to pray for our own conversion from being passive recipients to being fruitful contributors, for the conversion of the bishops from being defensive managers of decline to being prophetic inspirers of the new; for the conversion of the priests who think they are the parish. The church must receive the gifts of the laity, especially women, for the church to be renewed and reformed.</p>
6	<p>National:1.Revisit the documents of Vatican 2 especially in relation to the Laity as the people of God;2.Look at how we can become a non-judgemental, welcoming & supportive Church community with our rules and guidelines but how can these become more Christ-centred & positive in the lives of the Laity & others seeking God's love & support;3.More equal representation & empowerment of women, youth & children in all levels of the Church. Local:1.Adult Education.a) Have a question box for parishioners to ask questions concerning the Catholic faith, church tradition & history of the Church in Australia.b) The priest makes time to explain the Mass components/actions of priest during the Mass/symbols & utensils in the Mass/garments worn by the priest to help laity understand the richness of the Eucharist celebration & continually revisit this information;2.Community visitation by the laity;3. Have Home masses;3. Make mass celebrations participatory & special esp. Easter and Christmas, invite.</p>
8	<p>National: •Although concerned about the current state of the church we need to have faith in the Holy Spirit to convert & reform us all; •Help our clergy, especially overseas priests to have more time for pastoral work by the laity running the parish administration. Local:•Conversion of our people will only occur when we learn to listen & learn from people like Fr Elio Capra & Bishop Vincent Long. Consider guest speakers & even videos in lieu of homilies to help change attitudes to our faith;•We need to witness our faith in our families & in our community by our Christian action e.g.Vinnies work with the needy & by public expressions of our faith at Christmas & Easter;•Our congregation needs to be accepting & welcoming to people who may have previously been ostracised by the church ie divorced people, innocent parties & gays. Our rules regarding remarriage in other churches & annulments are confusing & contradictory;•We need to be less judgemental of others.</p>
5	<p>The Church must not be frightened to tell the Truth and to be consistent. The homily is the greatest opportunity to teach the Truth. Youth today wants the Truth. People are confused about what is right and holy vs what are human rights. Proposed Actions: 1. Discernment of the Holy Spirit must be taught to all Catholics: a. All Parish Priests to undergo Discernment of the Holy Spirit programs. b. Trained Priests are then to lead Discernment of the Holy Spirit seminars for a select group of lay people (leaders) in their parish, including regular refresher seminars. c. These leaders are to run regular Discernment of the Holy Spirit programs throughout the year for their parish. 2. Remove parish administrative work from the Parish Priest so that they can concentrate on the spiritual (sacramental and teaching) and pastoral work. 3. All parishes to run "Life in the Spirit" seminars annually as a minimum.</p>

7	<p>Actions to be taken:</p> <ol style="list-style-type: none"> 1. A meeting with the Bishop to be held, preferably twice a year, open to all practising Catholics, to <ol style="list-style-type: none"> a. Teach / discuss authentic Catholic doctrine, and b. We need Catholic doctrine intertwined with the Scriptures, not just one or the other.
6	<p>21st century catholics will not accept a “men only” governing church any longer. The hierarchy needs a female perspective so women in leadership (deacons and priests) would satisfy this need.</p> <p>For our church to move on from the respect and trust lost through clerical abuse, an official acknowledgement and “sorry” from the pope/church and then compensating victims properly and promptly would be beneficial.</p> <p>Let priests marry (should they choose) and married deacons become priests. This will help solve the problem of reduced numbers joining the priesthood. As family men, they will be more integrated into parish community and have a better understanding of family life.</p> <p>Reassess annulment process. If marriage contract is broken by one party, the other should not be penalised and be free to remarry without going through the lengthy annulment process (costs reduced and intimate questions should be abolished)</p> <p>Encouragement to listen to the Holy Spirit who seems to be prompting change</p>

Put in advance the readings and gospel for next Eucharist celebration for parishioners heads up knowledge and reading. As such, catechism and proper marriage formation ought to be regularly conducted with emphasis on the Real Presence.</p> <p>Reverence for the Blessed Sacrament is paramount. The faithful should be encouraged to kneel to receive Our Lord in Holy Communion unless otherwise impaired due to age, sickness or ability. Holy Communion should be where possible received on the tongue to reduce sacrileges from particles of consecrated Hosts unconsciously left on the hands of communicants, falling to the ground and trodden on, or deliberately not consumed and stolen to be later desecrated.</p> <p>The Traditional Latin Mass should be offered as an option in parishes once week to give Catholics the opportunity to experience “the Mass of all time” handed down by our forefathers</p>

The role of deacons needs to be revived so to call all members of society.</p> <p>The Christ-centred Church needs to come back to the teaching of God is Love.</p> <p>The rituals and practices need to be minimised to encourage genuine participation.</p>

11	<p>We strongly suspect that changes called for by some people making submissions along with calls for same sex marriage, ordination of women, the Third Rite of reconciliation, lay-led liturgies and Masses, divorce and so on, are the result of many years of neglect and confusion in the area of Catholic formation and catechesis. Surveys of Church practice and belief indicate that the Gospel needs to be proclaimed anew in our times. We would like to see the rejection of all incursions of the laity into the role of the ordained ministry – but encouragement for a formation and strengthening of the Catholic laity to be “salt, light and yeast” in Australian society at all levels.</p>

As a church, we need to repent, believe and act courageously for change.</p> <p>OUTCOME 2: Reform Governance & Decisions. Transition away from clerical-hierarchal model to a flat governance with equal decision making from elected laity (who are part of the body of Christ).</p> <p>ACTIONS: Conduct annual/bi-annual synods/forums and election of willing lay representatives at parish, deanery, diocesan and national level to have voting rights on finances, policy, planning, appointments (and contribute to theology if trained/qualified). Targets for 50% women & representation from indigenous and ethnic communities.</p>

Support & increase the numbers of priests with wider experience and talents to be available for pastoral ministry and sacraments.</p> <p>ACTIONS: Provide conversion training to priesthood for interested Deacons and Religious. Discernment and training for committed married men, women and ethnics/minorities, resulting in priesthood.</p> <p>Develop and conduct ongoing spiritual, leadership and professional development for clerical and lay leaders /representatives. This includes placement to pastoral involvement in struggling parishes & faith communities to ‘get the smell of the sheep’ as stated by Pope Francis.</p> <p>Greater numbers and diversity will assist evangelisation and faith formation of the populace.</p> <p>Note: one member of the group preferred celibacy.</p>

6	<p>The clergy abuse crisis calls for conversion, renewal & reform that point to purpose of amendment & a proven plan. We submit a practical contribution to identify, address & benefit sexually afflicted clergy, religious, laity & youth. Bishops could re-investigate the insights into sexual formation as prophetically stated by Fr Duynstee, Drs Terruwe & Baars who based their findings not on behavioural psychology (which has failed the Bishops & Church), but on the philosophical psychology of St Thomas Aquinas. This applicable study is well documented, though hardly known or understood. Since the 1970s, Terruwe/Baars warned of the dangers of clerical psycho-sexual immaturity. Their collective teaching was founded on philosophical, psychiatric, psychological, theological, moral & spiritual principles, enlightened by grace. It is both preventative & reparative of erroneous sense judgements concerning the procreative drive resulting from sin, ignorance, abuse & other sexual disorders.</p>
26	<p>We propose regular diocesan assemblies giving voice to those often excluded from church and society. These diocesan assemblies can then feed into a nation-wide process of review of theology and church teaching to allow renewal and reform.</p> <p>Church members need to have a sense of being heard at the local, diocesan and national levels. One vehicle for this is mandatory diocesan and parish pastoral councils, but these councils must be inclusive in their membership, processes and agendas.</p> <p>We propose that monetary management at all levels of church be shown to be transparent and open through publishing of audited financial reports.</p> <p>We propose that environmental audits be undertaken in all parishes and dioceses and steps be taken personally and communally to walk lightly on this earth.</p>

11	<p>Through prayer, listening and conversation the group felt the Spirit is calling us to:</p> <ul style="list-style-type: none"> • Call for the ongoing education and true formation of the clergy and laity aimed at nurturing and developing a genuinely pastoral Church that listens with empathy, responds with compassion and encourages trust and hope. • Invite, encourage and support more professional women from diverse backgrounds in the formation of seminarians and priests, and in all theological colleges. • Review and audit documents, laws and teachings with a renewed pastoral consideration and emphasis. • Reflect, dialogue and pray for direction to openly consider the ordination of married men and women for a fuller expression of the Church as a people of God without fear or favour, and which acknowledges and respects the baptism imperative given to all. • A proper, sustained and genuine pastoral engagement with all God's people focused on catechising and supporting families through all stages of life.

38	<p>As only one of about forty Australian groups with people of every age from every expression of the Church (e.g. parishes, religious orders, priests' fraternities, the Neocatechumenal Way, Schoenstatt, Charismatic Renewal, the Marian Movement, Legion of Mary) we are being lavishly enlightened about the Life, Passion, Death and Resurrection of Christ in an indescribable way through the writings and witness of the Italian mystic, Luisa Piccarreta, and taught how to truly fulfil the only prayer that Jesus taught us, incessantly prayed for two millennia that God's Kingdom would come and His Will would be done on earth as in heaven. As people faithfully gather in groups weekly both locally and nationally, with constant catechetical input from across the globe, we are seeing people drawn into the Catholic Church and nominal Catholics are coming alive in their faith through their complete submission to Christ, His teaching and His Church. The powerful witness of this is converting others.</p>
5	<p>Why do we need to change and do things differently in response to Christ if we are Standing firm and holding fast to the traditional teachings of Christ? 2 Thessalonians 2:15</p> <p>What we do need is solid catechesis that truthfully teaches the laity (especially school aged children) about the truths embedded in The Creed of the Church. The texts used in Catholic Schools and for children who attend non Catholic schools, are taught without passion, without a balanced view of good and evil. It's a subject devoid of the fruits of the sacrament of confirmation like; 'wonder and awe,' so necessary to lifelong renewal and conversion. True conversion requires humility (that recognizes that we are sinners who are in journey, Pope Benedict XVI:) and cleansing (reconciliation), to make room for God's Holy Will in our lives. St Paul Galatians 2:20. It is no longer I who live, but Christ lives in me. Catholics, need to be passionate about their faith and ready to die for Christ as did the Apostles.</p>
3	<p>In what ways can we change to be followers of Christ, to open ourselves to the truth and to refresh our lives?</p> <p>Educate us in the ways of the truth, God in context, to have an understanding of others' lenses.</p> <p>Have prayerful practices. Have prayer outside of mass, develop prayerful habits.</p> <p>Bible study in small groups to increase knowledge, understanding and community.</p> <p>Alpha</p> <p>Encourage different charisms.</p> <p>Improve the liturgy.</p>
