

AUSTRALIAN CATHOLIC BISHOPS CONFERENCE

**FIFTH PLENARY COUNCIL OF
AUSTRALIA**

**THE INSTRUCTION
FOR THE STATUTES AND REGULATORY
NORMS IN THE CONDUCT
OF THE SECOND GENERAL ASSEMBLY**

Version 14 June 2022

INTRODUCTION

In accord with Article 22 of the Statutes and Regulatory Norms of the Fifth Plenary Council of Australia, the plenary assembly may adopt procedures and processes that assist it in dealing with the agenda.

For the effective conduct of the Second General Assembly of the Plenary Council and for the benefit of the plenary assembly, an Instruction is provided at the service of the Statutes and Regulatory Norms of the Plenary Council, in accord with Canon 34 §1:

Instructions which set out the provisions of a law and develop the manner in which it is to be put into effect, are given for the benefit of those whose duty it is to execute the law, and then bind them in the executing the law. Those who have executive power may, within the limits of their competence, lawfully publish such instructions.

This Instruction, published within the executive power of the President of the Plenary Council, seeks to ensure the harmony between the synodal processes of discernment of the journey of the Plenary Council and the requirements of the Statutes and Regulatory Norms which remain unchanged but by the Instruction applied to the program of the Second General Assembly. In such manner processes and procedures may benefit with alignment.

The Second General Assembly of the Fifth Plenary Council of Australia comes at a specific point in the entire journey of the Council which from its outset has been both underscored and sustained by spiritual discernment. The processes of listening, inquiry, and discernment have been the currency of the plenary journey leading up to the First General Assembly in October 2021 and subsequent to that occasion. The journey has required members to engage such discernment so that the Second General Assembly may provide the Church in Australia with clear purpose and direction so that the mandate of the Plenary Council may be fulfilled as detailed in Article 1 of the Statutes and Regulatory Norms of the Fifth Plenary Council of Australia, namely to determine:

- first, what seems opportune for an increase of faith;
- second, for the ordering of common pastoral action; and
- third, for the direction of morals and for the preservation, introduction, and defense of a common ecclesiastical discipline.

The Second General Assembly represents the stage of the plenary journey at which members move beyond personal aspiration and now make those decisions that call forth the Church in Australia to future possibility and mission.

This procedural Instruction is published at the service of this historic moment. Endorsed by the Australian Catholic Bishops Conference

This Instruction seeks to ensure the harmony between the synodal processes of discernment of the journey of the Plenary Council and the requirements of the Statutes and Regulatory Norms which remain unchanged but, which by the Instruction, are applied to the program of the Second General Assembly. In such manner processes and procedures may benefit with alignment.

In making interventions, members will be recognised in the order in which they indicated their intention of speaking in writing to the Secretary of the Council prior to the session, or to the chairperson during the session.

All interventions shall be in reference to the matter under consideration and shall not exceed three minutes.

A member may not speak to the same matter more than once, except in explanation, unless he or she is the mover of a motion exercising a right of reply. The chairperson may for a just reason waive this regulation.

Members will normally not reiterate what another speaker has already spoken about, though a member may request the chairperson to consult the plenary assembly as to the agreement of members on a view that has been stated.

For the Second General Assembly:

1. For each motion, and for each amendment, members may apply to make an intervention in writing to the Secretary no later than 10.00pm on the preceding day.

6. The chairperson may use the facility of a poll indicator during the discussion to determine whether the members wish to proceed to a vote.

v. *Small working groups*

Some of the work of the Plenary Council may be undertaken by small working groups, which serve to heighten opportunity for participation.

Normally each small working group will nominate a member to speak on behalf of the group when reporting to the plenary assembly. This may be by way of a summary of the group's discussion, certain insights that the group decides should be conveyed, or conclusions reached by the group.

For the Second General Assembly:

1. Small working groups will form part of the morning program of each day during which they reflect and discern on the motions and amendments proposed for the sessions of the day.
2. Should any small working group discern to propose an amendment to a motion that is significantly different from amendments that have already been proposed, a nominated member will present to the Secretary, via email, the amendment no later than the end of session two of the days allocated to small working groups.
3. The email address is: secretary@plenarycouncil.org.au
4. The proposed amendment will require both a mover and a seconder.
5. The proposed amendment will be required to meet criteria for consideration in demonstration of its distinctiveness and relevance to be determined by the Drafting Committee.
6. The criteria for distinctiveness and relevance are such as to:
 - a. Be relevant to the motion.
 - b. Further form or refine it.
 - c. Not alter its general intent or negate it.
 - d. Enjoy the unanimity of the small working group, less one, and not be an individual submission.
7. The Secretary shall forward the proposed amendment to the Drafting Committee immediately which will then provide the Secretary with a list of any additional amendments for consideration by the assembly.

vi. *Facilitated processes*

Some of the work of the Plenary Council may be undertaken with the guidance of a facilitated process. Where this occurs, the facilitator will first outline the foundations and methods of the process to be used. Facilitated processes may assist the discernment of a particular matter but voting on the outcome of such processes must always take place separate from the process.

Article 23: Resolutions and Amendments to Resolutions

i. *Motions*

All resolutions to the plenary assembly shall be in the form of motions.

ii. *Preparation of motions*

All motions should be prepared by the Drafting Committee and be provided in writing to the Secretary prior to the session in which the resolution is to be considered. All amendments to motions should, whenever possible, also be provided in writing to the Secretary.

iii. *Proposal and amendment of motions*

All motions and amendments to motions, except for adjournment of a given session, are to be moved and seconded. A motion or amendment to a motion lapses if it is not seconded.

A motion or amendment to a motion may be seconded, so as to allow discussion to occur, without the seconder supporting or voting for the resolution.

As soon as a motion or amendment to a motion has been moved and before it is seconded and discussed, the mover may briefly explain the motion and answer any question seeking clarification.

Any amendment to a motion must be relevant to the motion, further form or refine it, and not alter its general intent nor negate it.

For the Second General Assembly:

Part A: Pre-Second General Assembly processes

1. Through the process of sustained discernment which has underscored the entire Plenary Council journey, proposed motions for the Second General Assembly will be formulated by the Drafting Committee for consideration by the Steering Committee and relayed both to the Bishops Commission for the Plenary Council and to the Australian Bishops Conference for its May Plenary Conference (May 2022).

2. The proposed motions will be published to members and the wider public by 31 May 2022.
3. Recommendations for amendments to the motions will be invited from members, to be received through an online portal by the Secretary by 15 June 2022.
4. The proposed recommendation must be distinct and relevant. This will be determined by the Drafting Committee using the criteria that they:
 - a. Be relevant to the motion
 - b. Further form or refine it
 - c. Not alter its general intent or negate it.
5. The Secretary will convey the proposed amendments to motions to the Drafting Committee.
6. After considering the amendments proposed by members, the Drafting Committee will prepare proposed amendments to be presented to the assembly.
7. The Steering Committee will publish the proposed amendments to motions to members and the wider public on 29 June 2022.

Part B: During the Second General Assembly

8. Proposed motions and their amendments will form the program for the Second General Assembly.
9. Motions and their amendments will be presented to the assembly at the commencement of each day.
10. In respect to Article 22. v, further proposed amendments to motions are only possible through the processes of small working groups. The criteria for these proposed amendments are detailed in Article 22 v), 4.
11. Each motion will require a mover.
 - a. The mover may briefly speak to the motion, not exceeding two minutes.
 - b. The mover will be required to prepare their explanatory note to the Secretary in advance.
12. Each motion will require a seconder to allow the tabling of amendments to the motion.
13. Each amendment will require a mover and a seconder.
 - a. The amendment will be presented with an explanatory note prepared in advance by the mover and discussed for the time allowed by the Secretary.
 - i. Members may speak only once to each amendment.

- ii. Members may speak for no more than two minutes.
- iii. All interventions of members on each amendment, prepared in writing prior to the discussion, will be recorded in the Acts of the Plenary Council.

14. The motion will be adjusted by the Secretary following each vote in which the amendment is accepted.

iv. *Withdrawal of motions*

A motion or amendment to a motion which has been moved and seconded may be withdrawn with the consent of the mover, the seconder and the chairperson of that session. The same or a similar motion may be proposed in a later session.

Article 24: Particular Motions

i. *A motion to adjourn*

A motion to adjourn the session may be invoked by the President and takes precedence over all others. It does not require a seconder. It is not amendable or debatable. It need not be presented in writing. A deliberative vote must be made immediately. A simple majority is sufficient.

ii. *A point of order or question of privilege*

A point of order or question of privilege is a clarification of the Regulations called for by a member of the Plenary Council. It does not require a seconder. Once the matter is presented by the member, it is resolved by the chairperson without amendment, debate or vote. The chairperson may consult the President and Canonical Committee before responding to a point of order or question of privilege.

iii. *A motion to appeal the decision of the chairperson*

A motion to appeal the decision of the chairperson is any motion calling for the reversal of a decision of the chairperson of the session. Where the decision being appealed is provided for in the Regulations, the Canonical Committee shall determine the decision on the appeal. Where the decision being appealed is not provided for in the Regulations, the President shall determine the decision on the appeal.

iv. *A motion to end debate and proceed to a vote*

A motion to end debate and proceed to a vote, that is, to effect closure of discussion, must be seconded but is neither amendable nor debatable. A deliberative vote must be made immediately. A majority of two thirds is required.

v. *A motion to postpone or suspend discussion*

A motion to postpone or suspend discussion must be seconded but is neither amendable nor debatable. A deliberative vote must be made immediately. A simple majority is sufficient.

vi. *A motion to reconsider a vote already taken*

A motion to reconsider a vote already taken in the plenary assembly must be presented, signed by the mover and at least half the members of the Plenary Council, along with the reasons for reconsideration, to the Secretary. The motion is placed on the Agenda by the Steering Committee. It is neither amendable nor debatable. A deliberative vote must be made. A majority of two thirds is required.

Article 25: Other Motions

All other motions are to be seconded before being considered by the plenary assembly. Other motions are debatable and are subject to amendment.

Once an amendment to a motion is moved and seconded, it is discussed and voted upon before discussion of the original motion or of any subsequent amendments may continue.

Amendments to an amendment are treated in the same manner as amendments to a motion. Once all amendments have been discussed and voted upon and passed, the original motion as amended will stand and discussion will be closed.

If an amendment is unsuccessful, the discussion will return to the original motion.

For the Second General Assembly:

It is assumed that some members will have prepared interventions on the original motion. If none of the amendments are passed, those members will be permitted to speak to their interventions before a vote is taken. However, if the original motion is amended and discussion closed, the interventions of the members on the original motion will still be recorded in the Acts of the Plenary Council.

Article 26: Decrees

The plenary assembly shall define the manner of promulgation of decrees and the time when the promulgated decrees begin to oblige. Decrees may not be promulgated until the Apostolic See has reviewed them (Can. 446).

For the Second General Assembly:

1. It will be proposed by the President to the plenary assembly in the first plenary session of the first day, that drafts of the Plenary Decrees will be formulated during the process of the Second General Assembly.
2. It will further be proposed that the finalised Plenary Decrees will have effect six months following receipt of the *recognitio* from the Apostolic See.
3. The Canonical Committee will have responsibility for the draft formulation of the Decrees, with support from the Secretary.
4. The Canonical Committee shall submit all draft Plenary Decrees to the President no later than midday on the last working day of the plenary assembly.
5. The Plenary Decrees will be presented to the assembly by the chairperson of the final session of the Second General Assembly and the confirmation of members will be provided by the presentation of a green or red card.
6. The text of the Plenary Decrees will be presented to the Australian Catholic Bishops Conference Plenary in November 2022 as part of the Acts and Decrees of the Plenary Council.
7. In due time, the promulgation of the Plenary Decrees will be published in the *Australasian Catholic Record* and the website of the Australian Catholic Bishops Conference as is the practice of the Conference.
8. A pastoral resource with the outcomes of the Plenary Council will also be published by the Australian Catholic Bishops Conference upon the *recognitio* from the Apostolic See such that the new laws are accessible to all.

Article 27: Voting

1. *Methods of voting*

Voting will be via a secure electronic system or individual paper ballot which shall record the vote of each member of the Plenary Council as assent (*placet*), qualified assent (*placet juxta modum*) or dissent (*non placet*). An electronic system or scrutineers shall count the number of votes, identifying those that are invalid or abstention, and tally the votes received. The electronic system or scrutineers shall not reveal the vote of any member.

In matters where a canonical vote is not required or in which there is no indication of opposition to the motion, the chairperson may without any vote declare the motion “unanimously approved”. However, if any member objects to this, a vote must be held. Where it is evident that a series of related motions pertaining to the same matter has the support of members, a motion may be moved that all of these motions be approved by a single vote. However, if any member requests that each motion be voted upon separately, the chairperson shall accede to this request.

Normally, a consultative vote takes place prior to a deliberative vote, though the former is not binding.

2. *Definitions of Majority*

Subject to the presence of a quorum of two thirds of those entitled to vote in each of a consultative vote and a deliberative vote,

a simple majority is attained when the number of valid votes received equals more than half of the voters present. The count for a simple majority will exclude invalid votes and abstentions.

a qualified majority is attained when the number of valid votes received equals two thirds or more of the voters present. The count for a qualified majority will exclude invalid votes and abstentions.

3. *Prayer before voting*

In matters concerning the essential purpose of particular councils, namely those set forth in Article 1 of these Statutes and Regulatory Norms, a period of silent prayer shall be observed after the motion has been discussed and prior to a vote being taken. It shall be for the Steering Committee to indicate the desired duration of the period of prayer.

4. *Consultative Vote*

All members called to the Plenary Council who are not bishops, or and are not those mentioned in Article 4, have the right of a consultative vote (Can. 443 §3, 1° - 4°, §4).

Bishops and those mentioned in Article 4 do not have the right to a consultative vote.

Guests invited to the Plenary Council, whether to provide advice or as observers, do not have the right to a consultative vote nor a deliberative vote (Can. 443 §6).

5. *Deliberative Vote*

Bishops called to the Plenary Council and those mentioned in Article 4, have the right of a deliberative vote (Can. 443 §1, 1° - 3°; §2, Can. 450, 1°).

In matters concerning the essential purpose of particular councils, namely those set forth in Article 1 of these Statutes and Regulatory Norms, a deliberative vote will not be taken in the same session as a consultative vote.

A qualified majority is required for a motion to succeed.
